

Siesta Soft

By Ingmar Relling

 Hjelle

Siesta Soft is a continuation of the iconic and classic Siesta chair by Ingmar Relling, designed in 1965. Siesta Soft is still true to its origin and to Ingmar Relling's original idea of the Siesta chair – an elegant design, an optimized use of materials and an outstanding comfort.

The down and feather filled cushion provides great, cosy comfort and an over all relaxed look.

Siesta Soft is only available as high back and in textile. Choose between light oak frame with nature canvas or black frame with black canvas. Siesta soft is ready to order and can be ordered from your local LK Hjelle dealer.
